Education

Web Development
Self-teaching
Online, 2020

ND & BTech in Mechanical Engineering
Cape Peninsula University of Technology
South Africa, 2013 - 2018

Projects

TROOOC.COM: EXPENSE TRACKER
Web App
A simple and yet a useful personal expense tracker app featuring friendly user experience. With only four menus: Home menu to manage your expenses, Tips menu to write and read tips from the community, Budget menu to list your unique budget and finally your profile. The App is accessible at troooc.com.

Technologies: React + Node.JS

PERSONAL PORTFOLIO
Website
While portfolio websites can be done with any technology, I decided to build my personal website using Next.JS for its benefits during development and for performances.

Technologies : Next.JS

Work experience

Mechanical Engineering Intern
Kinsenda Copper Company/Metorex
DR Congo, 2019

Mechanical Engineering Intern
CPUT Mechanical Engineering Workshops
Cape Town, 2016 – 2017
